The table of correspondence between the sections of the peer-reviewed "Cybersecurity issue" journal and the nomenclature of scientists' specialties in which the degrees are awarded, approved by order No. 118 of the Ministry of Science and Higher Education of the Russian Federation of the 24th of February 2021

№ п/п	Section of the journal	Groups of scientific specialties according to the nomenclature
1.	Safe artificial intelligence	1.2. Computer science and informatics
2.	Information security risk management	1.2. Computer science and informatics
3.	Methods of mathematical modeling	1.2. Computer science and informatics
4.	Conceptual cybersecurity issues	1.2. Computer science and informatics
5.	Cyber security testing and monitoring	1.2. Computer science and informatics
6.	Theoretical foundations of computer science	1.2. Computer science and informatics
7.	Internet meta network security	2.2. Electronics, photonics, instrumentation and communications
8.	Network security	2.2. Electronics, photonics, instrumentation and communications
9.	Mobile security	2.2. Electronics, photonics, instrumentation and communications
10.	Cryptographic protection methods	2.3. Information technology and telecommunications
11.	Critical information infrastructure security	2.3. Information technology and telecommunications
12.	Identification and authentication	2.3. Information technology and telecommunications
13.	Applications of coding and cryptography methods	2.3. Information technology and telecommunications
14.	Methods and means of security analysis	2.3. Information technology and telecommunications
15.	Security of software environments	2.3. Information technology and telecommunications
16.	Application of coding and cryptography methods	2.3. Information technology and telecommunications
17.	Software and firmware security	2.3. Information technology and telecommunications
18.	Methods and means of coding	2.3. Information technology and telecommunications

19.	Technical regulation of the field of security	2.3. Information technology and telecommunications

The articles are accepted for the following scientific specialties:

1.2.4. Cybersecurity (physical and mathematical sciences)

2.2.15. Systems, networks and devices of telecommunications (technical sciences)

2.3.1. System analysis, management and information processing (technical sciences)

2.3.5. Mathematical and software support for computing systems, complexes and computer networks (technical sciences)

2.3.6. Methods and systems of information security, information security (technical sciences; physical and mathematical sciences)
